SWISS BIOTECH SUCCESS STORY

Genedata solutions in silico

**Basel**

Genedata is the globally leading provider of enterprise software for digitalizing data-rich and complex biopharmaceutical R&D processes. Incorporating extensive biopharma R&D domain knowledge, Genedata software helps biopharmaceutical organizations to streamline workflows, increase research automation, improve experimental data quality, and maximize the ROI in R&D expenditure, which results in innovative biotherapeutics reaching patients faster.

Founded in 1997 by Othmar Pfannes, Ph.D., Genedata is privately owned and headquartered in Basel, Switzerland. Organic growth and a strong commitment to its employees are the cornerstones of Genedata's 25-year history.

With more than 300 employees and offices strategically located throughout Europe, the USA, and Asia, Genedata works closely with global industry leaders to help them deliver innovative biotherapeutics, vaccines, and cell & gene therapies to patients more efficiently.
Today, over 200 R&D institutions rely on the Genedata Biopharma Platform, including all top-25 biopharma companies worldwide.

Boston, London, Munich, San Francisco, Tokyo, Basel, Singapore
