

SWISS BIOTECH SUCCESS STORIES

Celebrating and honoring major achievements

SOPHiA GENETICS is a cloud-native software company in the healthcare space dedicated to establishing the practice of data-driven medicine as the standard of care and for life sciences research. It is the creator of the SOPHiA DDM™ Platform capable of analyzing data and generating insights from complex multimodal data sets. The SOPHiA DDM™ Platform and related solutions, products and services are currently used by a broad global network of more than 750 hospitals, academic centers, laboratories and biopharma institutions.

SOPHiA GENETICS' mission is to build the future of AI-assisted medicine. We are integrating multimodal health-care-omics data, unlocking the existing data silos and developing machine learning models to produce actionable insights that could eventually support healthcare professionals to improve patient outcomes.
